

NEEHARIKA GARG (NEEHA)

QA MANAGER | QUALITY ENGINEERING LEADER | AUTOMATION ARCHITECT

Pune, Maharashtra | Remote / Hybrid | Immediate Joiner

Phone: +91 81972 01901 | Email: neeharika.goyal@gmail.com

LinkedIn | Portfolio | GitHub

EXECUTIVE PROFILE

Quality Engineering Leader with 16+ years of IT experience across enterprise QA, test management, automation, quality governance, and delivery leadership spanning Government Identity, BFSI, Insurance, Travel, and Life Sciences. Experienced in leading QA teams, defining QA strategy, managing team performance, architecting automation frameworks, and governing end-to-end delivery across functional, API, integration, regression, performance, SIT, UAT, production readiness, and Go-Live. Brings 4 years of USA onsite experience, with a strong technical foundation in Java, Selenium WebDriver, REST Assured, Jenkins, Maven, Git, Docker, and CI/CD. Currently expanding capabilities in Python, Playwright Java, Generative AI, LLM, RAG, prompt engineering, and AI-assisted testing.

KEY ACHIEVEMENTS

- Led end-to-end Quality Engineering activities for the Uganda National Identity & Civil Registry Platform.
- Managed 11 direct QA reports and coordinated cross-functional teams involving 30+ QA, Development, DevOps, Business Analysis, and UAT professionals.
- Owned QA strategy, test planning, SIT, UAT, quality gates, release governance, production readiness, and Go/No-Go recommendations.
- Contributed to automation initiatives using Selenium, Java, REST Assured, JMeter, Jenkins, Maven, Git, and Docker.
- Received the MOSIP Pillar Award for contribution to the Uganda National Identity & Civil Registry Platform.
- Brings 4 years of USA onsite experience and extensive onsite-offshore collaboration.

CORE EXPERTISE

QA LEADERSHIP

QA Strategy • Overall QA Management • Test Management • Quality Engineering • Quality Governance • Team Leadership • Team Performance Management • Mentoring and Coaching • Risk-Based Testing • Release Management • SIT • UAT • Quality Gates • Go/No-Go • Production Readiness • Stakeholder Management • Delivery Governance • Resource Planning • Capacity Planning • Management Reporting • Defect Management • Continuous Improvement

DEVOPS & TESTING

Jenkins • Maven • Git • GitHub • Docker • CI/CD • Continuous Testing • API Testing • Postman • Swagger • JMeter • SQL • Oracle • PostgreSQL • ETL Testing • Automated Build and Test Execution • Release Pipeline Integration

DATA & ENTERPRISE TESTING

ETL Testing • Data Warehouse Testing • Source-to-Target Validation • SQL and PL/SQL • Oracle • SQL Server • Informatica PowerCenter • Cognos Reporting • Backend Validation • Data Integrity Testing

PROFESSIONAL EXPERIENCE

Technoforte Software Pvt. Ltd. | QA Associate Manager

Dec 2020 – Jun 2026 | Bangalore, India

- Performed overall QA Manager responsibilities covering quality strategy, delivery governance, team leadership, performance management, and stakeholder coordination.
- Led end-to-end Quality Engineering for the Uganda National Identity & Civil Registry Platform, covering National ID, Birth Registration, Death Registration, and Civil Registry.
- Managed 11 direct QA reports and coordinated cross-functional teams across QA, Development, DevOps, Business Analysis, and UAT.
- Owned QA strategy, test planning, SIT, UAT, release governance, quality gates, production readiness, and Go-Live support.

AUTOMATION & ARCHITECTURE

Java • Selenium WebDriver • REST Assured • TestNG • JUnit • Cucumber • BDD • Page Object Model • Factory Pattern • Automation Framework Design • Framework Architecture • API Automation • Test Data Management • Automation Strategy • Python - Currently Learning • Playwright Java - Hands-on Learning • Spring Boot - Hands-on Learning

AI & EMERGING TECHNOLOGY

Generative AI - Currently Learning • Large Language Models (LLM) - Currently Learning • Retrieval-Augmented Generation (RAG) - Currently Learning • Prompt Engineering - Currently Learning • Python for AI - Currently Learning • AI-Assisted Test Generation - Exploring • AI-Assisted Automation Troubleshooting - Exploring • Intelligent Test Automation - Exploring • AI-Enabled Quality Engineering

- Architected and guided automation frameworks using Selenium, Java, REST Assured, and JMeter, supported by Jenkins, Maven, Git, and Docker.
- Directed functional, API, integration, regression, performance, and end-to-end testing.
- Managed test execution monitoring, defect trends, delivery progress, quality risks, and release readiness.
- Coordinated with government stakeholders, business users, implementation partners, and technical teams to resolve delivery risks and dependencies.
- Supported team performance through mentoring, feedback, work allocation, delivery monitoring, and capability development.
- Contributed to direct MOSIP platform work and country implementation quality activities.

Datamatics Global Services | Lead Consultant

Jul 2019 – Dec 2020 | Bangalore, India

- Delivered functional, API, integration, and regression testing for enterprise travel applications.
- Supported airline reservation, booking, ticketing, and Passenger Name Record (PNR) workflows.
- Coordinated testing activities with development and business stakeholders.
- Supported test planning, defect validation, regression execution, and release readiness.

Great American Insurance Group | Senior QA Lead

Dec 2017 – Jan 2019 | Cincinnati, Ohio, USA

- Led QA activities for insurance applications and enterprise data initiatives.
- Performed ETL and Data Warehouse testing, including source-to-target data validation.
- Validated data transformations using Informatica PowerCenter, Oracle SQL, and SQL Server.
- Supported Cognos Report Studio migration from version 10 to version 11.
- Designed and executed Selenium Java and TestNG automation tests.
- Performed functional, integration, regression, backend, and reporting validation.
- Collaborated with business and technical stakeholders to resolve defects and support delivery.

Infosys Ltd. | Senior System Engineer

Mar 2012 – Dec 2017 | India and USA

- Supported enterprise applications across Insurance, Banking, BFSI, Life Sciences, and Information Services client engagements.
- Performed functional, integration, regression, system, and end-to-end testing.
- Contributed to automation initiatives using Selenium WebDriver, Java, QTP/UFT, and BDD approaches.
- Supported Jenkins and Maven-based automation execution.
- Performed SQL/PLSQL, ETL, backend, and data validation activities.
- Worked with Informatica and Cognos in enterprise testing contexts.
- Supported defect management and test lifecycle activities using Rally, Azure DevOps (VSTS), HP Quality Center, and ClearCase.
- Collaborated with onsite and offshore teams, business stakeholders, developers, and project managers.

INDEPENDENT VENTURE & CONSULTING

Founder & Independent Consultant | NG SkillUplift

2026 – Present | Pune, India

Building an independent initiative focused on technical education, career development, mentoring, and professional consulting.

- Developing beginner-friendly Java, Python, and SQL learning programs.
- Building technical mentoring and career guidance initiatives for freshers and career switchers.
- Creating practical learning resources and structured training content.
- Open to freelance QA consulting, automation framework development, and project-based engagements.
- Exploring AI-assisted testing and intelligent quality engineering solutions.

EDUCATION & RECOGNITION

M.Tech – Computer Science & Engineering | University Institute of Engineering & Technology, Panjab University | 2011

B.Tech – Computer Science & Engineering | Maharishi Markandeshwar Engineering College, Kurukshetra University | 2008

Diploma – Information Technology | Seth Jai Parkash Polytechnic | 2005

Project Management Certification – Great Learning | July 2026

Recognition: MOSIP Pillar Award – Uganda National Identity & Civil Registry Platform
