PROFESSIONAL PROFILE

Quality Engineering Manager with 16+ years of experience leading enterprise Quality Assurance and Test Management initiatives across **Travel, BFSI, Government, Identity Management, Insurance, Retail, E-commerce, and Life Sciences** domains.

Proven expertise in **QA Strategy, Test Management, Release Management, Test Automation, Agile Delivery, Stakeholder Management, Risk Management, and Continuous Improvement**, delivering high-quality software solutions through effective leadership, governance, and collaboration.

Brings **4 years of onsite experience in the USA**, partnering with clients, business stakeholders, and engineering teams to deliver mission-critical enterprise applications.

Hands-on expertise in **Selenium, Java, REST Assured, JMeter, API Testing, CI/CD, DevOps, and Quality Engineering**, enabling scalable automation and predictable software delivery.

KEY ACHIEVEMENTS

- Led end-to-end Quality Engineering for the Uganda National Identity & Civil Registry Platform (MOSIP).
- Brought 4 years of onsite experience in the USA, partnering with clients and global teams.
- Led cross-functional Quality Engineering teams across QA, Development, DevOps, Business Analysis, and UAT.

- Delivered enterprise releases through effective test strategy, release planning, SIT, UAT, and production readiness.
- Built automation frameworks using Selenium, Java, REST Assured, Jenkins, and CI/CD.
- Strengthened software quality through test governance, risk-based testing, and Root Cause Analysis (RCA).
- Drove automation and continuous improvement across Government, Travel, BFSI, Insurance, Retail, and Identity Management domains.
- Partnered with business stakeholders and engineering teams to deliver business-critical enterprise applications.

CORE COMPETENCIES

Delivery & Release Management: Project Planning & Execution, Delivery Governance, Release Management, Release Planning, Production Readiness, Risk & Issue Management, Delivery Metrics & Reporting, Go/No-Go Support

Leadership & Stakeholder Management: Team Leadership & Mentoring, People Management, Cross-functional Leadership, Executive & Client Stakeholder Management, Resource Planning, Offshore–Onsite Delivery Model, Agile Delivery, Executive Communication

Quality Engineering & Test Management: Quality Engineering, QA Strategy & Planning, Test Management, Test Governance, End-to-End (E2E) Testing, System Integration Testing (SIT), User Acceptance Testing (UAT), Risk-Based Testing, Defect Management, Quality Gates, Root Cause Analysis (RCA)

Automation & DevOps: Automation Strategy, Selenium WebDriver, Playwright, REST Assured, Java, API Testing, CI/CD, Jenkins, Maven, Docker, Git

Tools & Technologies: Jira, Azure DevOps (VSTS), Postman, Swagger, Oracle SQL, Informatica, ETL Testing, JMeter, AI-Assisted Engineering

PROFESSIONAL EXPERIENCE

Organization	Designation	Domain / Client	Duration
Technoforte Software Pvt. Ltd.	QA Associate Manager	Government Identity (MOSIP)	Dec 2020 – Jun 2026
Datamatics Global Services	Lead Consultant	Sabre Corporation – Travel	Jul 2019 – Dec 2020
Great American Insurance Group	Senior Quality Assurance Lead	Insurance	Dec 2017 – Jan 2019
Infosys Ltd.	Senior System Engineer	LexisNexis, Wells Fargo, Allstate	Mar 2012 – Dec 2017
Baddi University	Assistant Professor	Computer Science	Nov 2011 – Mar 2012
Ganpati Institute of Technology & Management	Lecturer	Computer Science	Aug 2008 – Aug 2009

Industry Experience: 15+ Years

Academic Experience: 1+ Year

USA Onsite: 4 Years

Technoforte Software Pvt. Ltd. (Latest Company)

QA Associate Manager (Delivery & Quality Engineering Leadership)

Bengaluru, India | Dec 2020 – Jun 2026

Project: Uganda National Identity & Civil Registry Platform (MOSIP)

Domain: Government Identity Management

Key Responsibilities & Achievements

- Led end-to-end Quality Engineering for the Uganda National Identity & Civil Registry Platform (MOSIP), delivering National ID, Birth Registration, Death Registration, and Civil Registry solutions through Agile delivery.
- Owned QA strategy, test planning, release management, SIT, UAT, production readiness, release governance, and Go-Live support, ensuring predictable and high-quality software releases.
- Led and mentored cross-functional teams across Quality Engineering, Development, DevOps, Business Analysis, UAT, and Product Management, driving collaboration, delivery excellence, and continuous improvement.
- Defined and executed QA strategy, test automation strategy, quality metrics, quality gates, risk-based testing, defect management, and Root Cause Analysis (RCA) to improve product quality and release stability.
- Led testing across Web, Mobile, API, ETL/Data Warehouse, Integration, Regression, Performance (JMeter), and User Acceptance Testing (UAT), ensuring end-to-end quality assurance.
- Designed and maintained automation frameworks using Selenium WebDriver, Playwright, TestFX (JavaFX), REST Assured, Java, Jenkins, Maven, Git, Docker, and CI/CD, accelerating regression execution and release efficiency.
- Collaborated with government stakeholders, business users, implementation partners, architects, and engineering teams to manage delivery risks, align milestones, and ensure successful execution of mission-critical programs.
- Supported DevOps and cloud-native delivery by managing Dockerized test execution, monitoring Rancher-managed Kubernetes environments and application pods, ensuring environment readiness, deployment validation, and production stability.

AWARDS & RECOGNITION

MOSIP Pillar Award – Uganda National Identity & Civil Registry Platform

Recognized for significant contribution to the successful delivery and quality engineering initiatives of the MOSIP-based Government Identity and Civil Registry platform, supporting digital transformation and mission-critical national identity services.

CERTIFICATIONS

Project Management Certification Great Learning | July 2026 Credential ID: LCNRYQFC

ACADEMIC PROJECT / THESIS

M.Tech Thesis – Artificial Intelligence

Panjab University | 2009 – 2011

Title: Semantic Rank Based Industrial Document Retrieval

- Developed an AI-based semantic ranking model to improve industrial document retrieval accuracy and search relevance.
- Conducted research on information retrieval, semantic analysis, and ranking algorithms.

PROFESSIONAL AND ACADEMIC QUALIFICATION

M.Tech ME Masters of Engineering– Computer Science & Engineering

University Institute of Engineering & Technology, Panjab University | 2011 | 72.66%

B.Tech – Computer Science & Engineering

Maharishi Markandeshwar Engineering College, Kurukshetra University | 2008 | 79.27%

Diploma – Information Technology

Seth Jai Parkash Polytechnic | 2005 | 76.77%
